Curriculum & Course Schedule

Psychic Revolution will help unleash a **higher level** of psychic ability and intuition. You will begin to notice a difference **during the very first week**.

Each stage in Psychic Revolution includes:

- Hours of original content from Don that will enhance your psychic abilities
- Unique Guided Meditations to bring you to deeper levels of psychic awareness
- Exercises that will make each lesson come to life for you

Stage One: The Human Mind, Psychic Ability and Meditation

The first step toward becoming a specific and accurate psychic or intuitive is recognizing the powerful voice of divine truth within, accessing it, and allowing it to be unleashed. In this module, you will learn that there are no limits when it comes to how far you can take these abilities.

In this stage, I will give you everything you need to become aware of your intuition, or if you're already aware of your psychic abilities, you will be put in touch with how to connect to the **highest levels** of your intuition. I'll also answer the BIGGEST question that I get asked: "How can I tell the difference between my own thoughts, and my intuitive feelings?"

The Different Types of Psychic Abilities - But this isn't just a knowledge class. You will be given exercises to identify your psychic strengths and help you craft a strategy to develop your particular abilities.

Tuning In to Intuition - Discover how to immediately begin listening to your psychic abilities.

Awaken Your Intuitive Self - Go within and discover a sacred part of yourself that can help you access all of the information you need to live an empowered life.

The Difference Between Thoughts & Intuitive Abilities - You will learn how to identify psychic information and discard what is only your own thoughts.

Psychic Tools - What are they? Should you use one?

Stage Two: Tarot & Numerology

Many people are familiar with these tools, but very few understand the principles BEHIND them! Once you understand these principles, you will go FAR. In this section, I will draw back the veil of these two ancient and accurate psychic reading systems, and show you how they can enhance your intuition, as well as teach you more about yourself and your true nature.

Power Symbols - We will look at symbols in a new way, and how they can become the gateway to new and undiscovered abilities.

The Power of Numbers - Numerology is a great art and science, but it has become overly simplified and is quickly becoming a misunderstood art. You will see this ancient science in a new light, and begin to make connections to understanding friends, strangers, and yourself at an entirely new level.

Random Acts of Intuition - You will be introduced to a new level of reality that sees all things as not only connected, but instructive for our intuition.

The Importance of Your Brain - We will learn how to integrate knowledge with intuition to create a **powerful** and **accurate** system of intuitive knowledge

Stage Three: Releasing Fear and Obstacles

So many people know they have "some ability," but feel blocked, are afraid or don't know how to proceed. In module two, I help you blast through whatever obstacles have prevented you from reaching your highest level of psychic potential. While it's normal to have fear, we have to continually work on releasing that fear so that we can hear our inner divine guidance.

Removing Obstacles - I'll give you practical techniques that you can use to eradicate fear, and awaken higher levels of awareness.

Releasing the "I Can't" Complex - This week's guided meditation will allow you to simply and easily let go of the need to struggle. You will literally feel blockages begin to fade away.

Handling the Dark Side - What to do when negative information or energy comes up.

Accepting Yourself and Your Abilities - Let go of limiting beliefs and step into your worthiness to receive psychic information.

Stage Four: Angels & Spirit Guides

We have a higher consciousness guiding us, and it can aid us in our psychic development. If you are ready for an advanced lesson on spirit guides, that is what you are going to get in Stage Four. I will show you how the universe is willing to help you receive accurate information. When we are supported, we succeed. When we are not supported, we fail. So why would you ever undertake anything without the support of the universe?

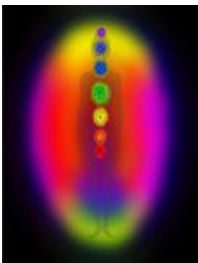

Meet Your Spirit Guide - Embark on a powerful spiritual journey. You can use this meditation to meet your guide for the first time or to meet your guide again and again.

Ask Your Spirit Guides for Help - Often we don't receive psychic information because we don't know how to ask for it. You'll learn how to get answers to specific questions or for more general knowledge.

Use Psychic Self-Defense - I will help you set the right boundaries so that you aren't absorbing other people's negative emotions or baggage.

Connect to Your Guide - I will teach you how to quickly and easily connect with your guides, so that you can receive information from them as you go through the day.

Stage Five: Auras and the Pendulum

Aura photography is the latest thing in the paranormal world. But, there is a **better** aura reader than any photograph: YOU. Be free of the need for gadgets, and learn how to read auras the way they are most accurately read and understood.

In addition to auras, you will learn to use one of the most incredible tools in any psychic's arsenal: the pendulum. These may be small, but they can teach you a great deal! As you develop your psychic abilities, the pendulum is one of the most important tools you could have.

The Meaning of Colors - Learn how colors reflect an entire library of information about someone.

Seeing the Aura - Train yourself to be able to see the aura not only in other people, but also in plants and animals.

Balancing Your Aura - Discover how to balance your own aura so that you can be in a clear, positive and effective psychic state at any time!

The Power of the Pendulum - You will learn not only the potential of the pendulum, but how you can use it to access hidden knowledge, including the Akashic Record itself!

Stage Six: Conducting a Psychic Session

It's one thing to have some level of intuition. It is completely another to be confident in your ability to get specific and accurate psychic information in a private session.

This week is about integrating what you've learned, assessing where you're at, and supporting you in your transformation into a powerful intuitive being.

Preparing for a Session - Find the space from which psychic information flows! This is the process that Don uses when he gives a reading to anyone, or even groups. Learn this technique and then develop a customized technique that works for you.

Overcoming Self-Doubt in a Reading - Doubt is toxic to psychic abilities, but we all have some level of doubt! Learn how to take your confidence to the next level, release self-doubt, and trust in the universe to give you the information you need.

Taking the Intuitive Leap - This week's guided meditation will challenge you to have a psychic leap forward in your intuitive development.

Stage Seven: Taking the Next Step

Where do you go from here? What can you do with all these tools and techniques? In this final week, you will learn the importance of continuing your development and hearing the call to growth.

Your new-found knowledge and abilities will take you far, and I will show you how to go beyond even that! Learning how to travel outside your physical body will give you new insights that will not only enrich your own life, but give you an unparalleled level of experience that will give you knowledge to communicate to your friends and clients. In this final stage you will learn to:

Pursue True Wisdom - I will introduce you to the **Sapientia Technique** that will carry you farther in your development than you could possibly imagine!

Create Space for Inner Growth - There is no stopping your development once it has begun. I will show you exactly how to continue your discovery of knowledge and apply it to your life with the **Magis Principle**.

Travel Out-Of-Body - Once you learn to do this, you will learn more than reading thousands of books and listening to hours of lectures!

Create your Psychic Threshold- You will define your personal goals for psychic development, and I will show you how to make these goals a **reality** in your life!

Four One-Hour Check-in sessions with Don

I will not give you a truckload of resources, and then hope you know how to grow. It's not honest, ethical or responsible. That's why I want to check-in with you to see how you are growing, as well as identify areas where you can focus more of your energy, concentration and intention.

These 4 one-hour phone sessions make all the difference! You will experience incredible personal growth from these sessions, and get the energy, resources and focus you need to become the **intuitive powerhouse** you truly are.

That's not all...
